

# stage lok<sup>®</sup>

## Portable Stage

Stagelok<sup>®</sup> is a modular, flexible staging system with the option to add additional units to meet your needs. Needing no screws or tools for assembly, set up is quick and easy and can be carried out by just one person.

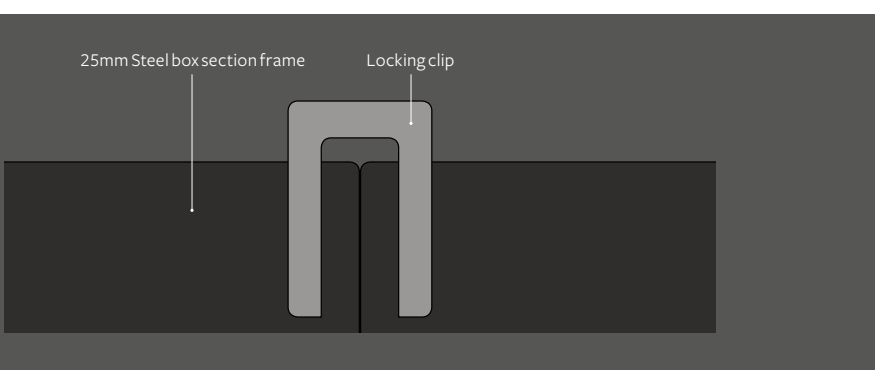

The neatly designed, folding square frame is strong and robust but folds flat for easy storage and handling. Manufactured using 25mm mild steel box section, the frames are locked together using an aluminium locking clip to prevent any movement.

Stagelok<sup>®</sup> decks are constructed from 18mm exterior grade plywood which is painted black with locating lugs and securing locks to prevent any movement.

Stagelok<sup>®</sup> frames are available at heights of 30cm, 45cm and 60cm and purpose designed and built storage trolleys are able to store and transport up to 9m<sup>2</sup> offering a complete solution.

Staging is complimented by a range of stage drapes in a variety of colours.

These portable stages are ideal for hotels, restaurants, caterers, companies organising events, shows, weddings, schools and festivals.

FINISHES			
	Black Plywood	Custom Colour Plywood	Custom Colour Carpet
	EDGING Available 78mm or 108mm (3" or 4")		
Black Powder Coated Steel		Powder Coated Custom Colour Steel	

Portable Stage

## Features – Benefits

- No screws or tools – quick and easy set up
- Painted plywood deck – helps against moisture/damp ingress
- Locating lugs and securing locks – lock down the deck
- Wipe clean powder coated frame – low maintenance
- Durable staging system – good value for Return of Investment (ROI)
- 3 year warranty on manufacture, labour and materials (excluding plywood deck) – peace of mind
- Slim line trolley – fits through single/double width doorways dependent upon frame size
- One trolley stores and transports up to 9m<sup>2</sup> of staging – compact/space saving
- Range of accessories available include steps, guardrails, skirting – complete solution
- Fully powder coated trolleys – offers a harder, more durable finish
